

Halloween Fun!

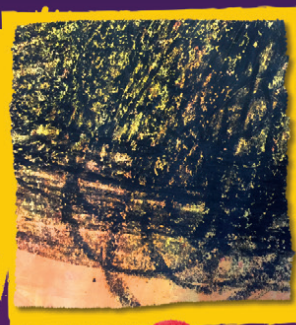

Experiment with colours and make some Halloween pictures and decorations!

Materials:

Paper (white or coloured)
Bright colourful paints
Black wax crayon
Lollipop stick
Paint brush (or use your fingers)
Scissors

1 Cover a piece of white paper with brightly colored paint. If you don't have time for painting, you could also use colored paper! Choose any bright colors you like, remember to make sure there are no white gaps left.

2 Once your painting is dry, take a black crayon and scribble all over your brightly colored picture covering as much of the sheet of paper as you can!

Take a popsicle stick scrape away the top black wax crayon layer, revealing the colors underneath. You can make lovely patterns, we drew leaves and pumpkin faces.

Once you have scraped designs and patterns ready, you can cut out your pictures using scissors into fun shapes.

5 Now your decoration is ready, stick them around your house for Halloween!

Children should always have supervision for activities using scissors.
